

The Iris Project

The Colorado End-of-Life Options Act

Everything Healthcare Providers and Facilities Need to Know Now!

On December 16, 2016, Governor Hickenlooper certified the Act. Terminally ill, mentally capable adults in Colorado now have the right to request medical aid in dying (also called physician-assisted death).

Love it, hate it, opt in, opt out, there's still a lot you need to know!

Providers must have written policies, or they cannot be enforced.

Patients, families, and healthcare partners have questions now! Are you ready?

This comprehensive program will equip attendees to:

- Understand the End-of-Life Options Act
- Protect patients' rights and your organization
- Develop an organizational policy aligned with your values
- Respond compassionately and respectfully to patient requests
- Educate staff, volunteers, and your community
- Prepare for operational and ethical challenges
- Continue to provide the best possible care to patients & families

Thank you to the **Hospice & Palliative Care Association of the Rockies** for sponsoring **Continuing Education units/hours** for nurses and social workers!

- **\$150 per person.** Includes continental breakfast, lunch, comprehensive materials, certificate of attendance

- **Space is extremely limited!** Register NOW to reserve a seat. **Registration will close January 12!**

Presenter: Jennifer Moore Ballentine, MA, is President of The Iris Project and Chair of the Colorado Advance Directives Consortium. Previously, she served as Vice President of Hospice Analytics, Executive Director of Life Quality Institute, and Director of Programs of Colorado Center for Hospice and Palliative Care. She has been closely involved with implementation of the California End-of-Life Option Act and brings "on the ground" experience along with deep knowledge of the research, policy, and operational challenges of medical aid in dying.

Special Guest: Kim Mooney has 24 years of experience as in the field of dying, death, and grief. She has worked with hospices as community educator and bereavement counselor, and as an independent consultant for faith communities, corporations, health care and mental health agencies. She is a certified Thanatologist and former Board member of the International Association for Death Education and Counseling. Through Practically Dying, Kim offers private consultations, trainings, retreats and presentations focused on navigating end-of-life needs and grief.

Too Much for a Webinar!

This live program includes:

Hands-on exercises

Role-playing conversations with patients & provider partners

Case studies from experiences in other states

Extensive take-away resources, frameworks, & best practices

CEU/CE Provider Colorado Center for Hospice & Palliative Care is approved by the California Board of Registered Nursing, Provider Number CEP16091, for 6.5 contact hours for this education.

Before the law passed, Kim supported, Jennifer opposed. Leaving the debate behind, both are now committed to ensuring responsible compliance with the Act and the highest quality of care for terminally ill patients and their families.
